PENETRATION TESTING + RED TEAM TACTICS

# **Master Active Directory: Advanced Attack for Red Team & Defense Strategies for Blue Team**

Deep Dive into Active Directory Security – Redefine Your Expertise  
This isn't just another course—it's a complete transformation of how you approach Active Directory (AD). Designed for security analysts and pentesters, this advanced, hands-on program goes beyond the basics, teaching not only how attacks happen but also the root causes and strategies for prevention.

## **Why This Course Stands Out:**

- Learn every attack type—from privilege escalation to lateral movement.
- Uncover misconfigurations that make AD vulnerable and their real-world implications.

## **Practical Mastery:**

- Live Practice Sessions: Tackle real-world challenges with guidance from experienced trainers.
- Dive into upgraded content, featuring the latest attack methods and defense strategies.

## **Root Cause Analysis:**

- Move beyond surface-level detection—understand why attacks succeed and how to fix systemic flaws.

## **Expert Trainers:**

- Get insights from industry veterans who have worked on enterprise-level breaches and top-tier defenses.
